

UNIFIED MESSAGING

A Powerful Tool For Your Sales Force!

Stay in touch with your sales force while providing them an excellent business building tool! Imagine having the ability to record a message one time and broadcast it to your organization by rank, depth, geographic location, or entire subscriber base. The TNT Voice Unified Messaging system provides your distributors a professional virtual office allowing them to communicate with their team and share your opportunity with potential recruits.

ADVANTAGES:

- Immediate Communication With Sales Force
- Builds Momentum
- Custom Recruiting Messages
- Team Downline Messaging (promotes internal communication)
- Professional Sales Force Image
- Another Means To Reach Sales Force - Keep Them Active & Engaged

Our state of the art system provides the most flexibility for your company. If there is a particular feature you would like implemented let us know. We can custom design a system to suit your needs.

PRODUCT HIGHLIGHTS:

- Follow-Me Capabilities Directs Calls To User
- Toll or Toll-Free Numbers For Added Convenience
- Receive Faxes Through System
- Email / Pager Notification
- Downline Messaging / Management
- Future Delivery Of Messages & Automated Message Campaigns
- Unlimited Greeting Length
- Mailbox Never Full
- Caller-ID
- Internet Accessibility – View Call Reports & Retrieve Messages Online
- Conferencing Calling
- Rotational Advertising
- Use System As A Calling Card

We charge each of your independent sales force a small monthly fee for the service, plus any toll-free minutes used. This provides each sales force member a 'virtual office' with many conveniences. Your sales force is now plugged into messaging from upper levels and can never say "I didn't know!"

Works In Conjunction With Voice
Messaging and Mobile Phone Software

GLOBAL MULTIMEDIA & VOICE MESSAGING

Global Communication For Your Entire Sales Force!

Imagine sending a message and having it available to your entire global sales force within minutes at no cost to the representatives! Welcome to 100% Adoption Global Multimedia & Voice Messaging! Overcome the limitations and costs of email and SMS messages by utilizing this powerful alternative to SMS & email messages.

Advantages:

- Connect 100% of your global sales force to a multimedia messaging system in numerous languages
- Avoid the high costs and failure rate of SMS & email messages
- Send and receive messages through the telephone, the Internet, or on a mobile device
- Communicate in multiple languages
- Send voice, text, documents, and video by rank, country, language, etc.

Our Global Multimedia & Voice Messaging is an excellent alternative to SMS & Email! Communicate with your entire global sales force on a secure, closed network avoiding the limitations and costs of message delivery!

Additional Advantages:

- No more missed emails (closed network)
- Preloaded company opportunity messages
- Mobile phone integration
- Automated triggered & scheduled messages
- No downline lists to manage
- Powerful business building tool

IS YOUR MESSAGE
NOT GETTING
THROUGH?

As a company, you can create a message and send it to your entire global sales force or send to select groups such as by rank, country, region, language, etc. You can develop a scheduled messages campaign that sends a new message every day for the first 30 days helping train new recruits increasing overall retention. Utilize triggered messages allowing the system to leave messages to certain people based on events that are triggered in the database, such as a reminder that a credit card is about to expire or congratulating a recent rank advancement.

Your representatives can use this tool for recruiting, sales orders, communicating to the downline, or to stay connected from a mobile device. An example is to place company approved messages on the system for recruiting purposes ("thanks for calling Bill Smith, to learn more about ABC Company's products press 3, to learn more about ABC Company's powerful opportunity press 4"). This is just one of the many ways your representatives can utilize this service to help increase sales, recruiting, and retention!

You can even expand the system to include order processing, signing up of new recruits, order tracking, and other sales force tools right from a mobile phone. Talk with us today about taking your business mobile.

MOBILE PHONE SOFTWARE

Your Sales Force Can Run Their Global Business Remotely!

Imagine your sales force being connected to your company anywhere in the world while mobile! In many parts of the world, text messaging (SMS) from a mobile device is the primary means of communication. How does your company send text messages, documents, and other media types to individuals who live in countries where mobile phone devices are more common than computers? If you're company is global, it is time to go mobile!

KEY FEATURES:

- Visual Voicemail
- Listen To Messages
- Send New Messages By Downline By Country, Rank, Or Structure
- Companywide Document Sharing
- Alternative to SMS & Email – Overcomes Limitations And Costs Of Email & Text Message Delivery
- Closed Network
- Send Voice Messages, Text Messages, Videos, And Documents.
- Supports multiple languages

Reduce downtime, increase productivity, speed up order processing and drive more revenue right from a mobile device!

Our Mobile Phone Software provides you real-time access to voicemail, faxes, documents and multimedia resources from the convenience of your phone, reducing downtime, increasing productivity and driving revenue producing activities.

This powerful mobile solution combines intelligent document management with a powerful messaging engine providing a virtual workspace accessible from any web browser or supported mobile device. Our Mobile Phone Software is delivered as a subscription based service, requires no additional hardware or software, and can be provisioned online in minutes.

Our Mobile Phone Software provides all the great features you would expect from an expensive mobile application, but in a simple, cost-effective service that keeps your sales force connected to the company, customers, and to each other.

The best part about the Mobile Phone Software is that it is integrated into our Multimedia & Voice Messaging service. Any sales force member who upgrades to the Business Builder package receives the Mobile package providing enhanced business features and connectivity. Our Mobile Software can also be added to many other communication services including Unified Messaging and our Virtual PBX plans. Users install the software simply by receiving a text message.

You can even expand the system to include order processing, signing up of new recruits, order tracking, and other sales force tools right from a mobile phone. Talk with us today about taking your business mobile.
